

Staff Safety Culture & Climate Survey

Haven Paediatric Centre · based on AHRQ HSOPS 2.0, adapted

Your answers are anonymous and confidential. They go to Consult for Africa, not to Haven management, and are reported only as grouped totals — never in a way that identifies you. There are no right answers; honesty is the whole point. About 10 minutes.

For each statement, choose how much you agree — or how often it happens — from **1** (strongly disagree / never) to **5** (strongly agree / always). Every item also has **N/A · Don't know**.

Your area & teamwork (agree 1–5)

1. Staff in my area treat each other with respect.
2. When the workload is heavy, we work together as a team to get it done.
3. In this area, people support one another.
4. During busy or difficult moments, we have the staff we need to handle the work.
5. The work pace here is so high that it feels unsafe.

Communication & openness

6. Staff feel free to question the decisions or actions of those with more authority.
7. Staff speak up if they see something that might negatively affect patient care.
8. Staff are afraid to ask questions when something does not seem right.
9. When staff make an error, we talk about it so we can learn from it.
10. We are told about changes to procedures and about mistakes that happen here.

Response to mistakes

11. Staff feel that their mistakes are held against them.
12. When an event is reported, it feels like the person is blamed, not the problem fixed.
13. When we make mistakes, we are treated fairly.
14. Repeated problems are dealt with constructively, not just punished.

Reporting & learning

15. When a mistake is caught before it reaches a patient, it is reported.
16. When a mistake reaches a patient but causes no harm, it is reported.
17. We are given feedback about changes made because of what gets reported.
18. After a problem, this area actually changes how it works to prevent it recurring.
19. I know how to report a patient-safety concern here.

Management & supervisor support

20. My supervisor / matron seriously considers staff suggestions for improving safety.
21. My supervisor / matron overlooks safety problems that happen over and over.
22. Management provides the resources (staff, equipment, drugs) needed to give safe care.
23. Management's actions show that patient safety is a top priority.
24. Management only seems interested in patient safety after something goes wrong.

Handovers between shifts

25. Important patient-care information is shared clearly across shifts.
26. Things fall between the cracks when patients are handed over between shifts or staff.
27. Shift changes are a risky time for patients here.

Emergency readiness & routines (how often 1–5)

28. The crash cart / emergency tray is fully stocked and ready.
29. There is a routine, every shift, for checking emergency drugs and equipment.
30. If a child needed emergency resuscitation right now, we would have what we need.
31. Essential drugs or consumables are out of stock when we need them.

**Emergency readiness — about you (agree 1–5)**

32. I have had recent resuscitation training (BLS / PALS / NRP) for the patients I care for.

Fairness, incentives & ownership

33. I understand clearly what I am responsible for and what good performance looks like in my role.

34. The way pay, commission or rewards work here is fair and clear.

35. The rewards and recognition here encourage good, safe, careful work — not just speed or volume.

36. I feel a sense of ownership for how well Haven runs, not just my own tasks.

Overall

37. Overall grade for Haven on patient safety: Excellent / Very good / Acceptable / Poor / Failing.

38. I would recommend Haven as a place to receive care. (1–5)

39. I would recommend Haven as a place to work. (1–5)
