

Haven Paediatric Centre

Diagnostic Audit: Survey Results

17 anonymous staff responses · Fieldwork 22 Jul 2026 – 26 Jul 2026 · Scale 1–5 · Prepared by Consult for Africa

RESPONSES	SAFETY GRADE	POSITIVE ITEMS AVG	RECOMMEND CARE
17 Staff, anonymous	11 /17 rated Excellent	4.06 /5 mean of positive items	4.59 /5 place to receive care

OVERALL GRADE ON PATIENT SAFETY

Excellent		11/17
Very good		5/17
Acceptable		1/17
Poor		0/17
Failing		0/17

▲ Strongest signals

I would recommend Haven as a place to receive care.	4.59
Staff in my area treat each other with respect.	4.47
I understand clearly what I am responsible for and what good performance looks like in my role.	4.47
Important patient-care information is shared clearly across shifts.	4.41
If a child needed emergency resuscitation right now, we would have what we need.	4.40

▼ Where to look next

The way pay, commission or rewards work here is fair and clear.	3.00
I have had recent resuscitation training (BLS / PALS / NRP) for the patients I care for.	3.07
The rewards and recognition here encourage good, safe, careful work, not just speed or volume.	3.40
Staff feel free to question the decisions or actions of those with more authority.	3.50
When an event is reported, it feels like the person is blamed, not the problem fixed. (rev)	2.38

WHAT THE NUMBERS SAY

Culture and safety read strongly. Every respondent graded patient safety Acceptable or better, with 16 of 17 at Very good or Excellent. Teamwork, handovers, error-learning and management commitment to safety all sit above 4.0, and the reverse-worded risk items (unsafe pace, risky handovers, supervisors overlooking problems) all sit low, which is the good result.

Three edges are worth management attention. Pay clarity (3.00) and reward fairness (3.40) are the softest scores. Recent resuscitation training (3.07) is a live gap for a paediatric centre and shows in the comments. And a minority feel blamed rather than supported after an incident (the just-culture item is the weakest of the reverse set), worth watching so reporting stays open.

The free text is consistent. Two themes dominate: more staffing / manpower for patient safety, and staff welfare (health insurance, pension, fair and timely pay, recognition, clinical training) for a better place to work. Facility and communication asks (bed spaces, inpatient comms, lift, ward flooding) appear as a secondary cluster.

FULL RESULTS BY SECTION

YOUR AREA & TEAMWORK

Staff in my area treat each other with respect.		4.47	n=17
When the workload is heavy, we work together as a team to get it done.		4.35	n=17
In this area, people support one another.		4.29	n=17
During busy or difficult moments, we have the staff we need to handle the work.		4.18	n=17
The work pace here is so high that it feels unsafe. (rev)		1.71	n=17

COMMUNICATION & OPENNESS

Staff feel free to question the decisions or actions of those with more authority.		3.50	n=16 · NA 1
Staff speak up if they see something that might negatively affect patient care.		4.31	n=16 · NA 1
Staff are afraid to ask questions when something does not seem right. (rev)		2.18	n=17
When staff make an error, we talk about it so we can learn from it.		4.38	n=16
We are told about changes to procedures and about mistakes that happen here.		4.00	n=17

RESPONSE TO MISTAKES

Staff feel that their mistakes are held against them. (rev)		2.07	n=15 · NA 2
When an event is reported, it feels like the person is blamed, not the problem fixed. (rev)		2.38	n=16 · NA 1
When we make mistakes, we are treated fairly.		3.87	n=15 · NA 2
Repeated problems are dealt with constructively, not just punished.		4.06	n=17

REPORTING & LEARNING

When a mistake is caught before it reaches a patient, it is reported.		3.94	n=16 · NA 1
When a mistake reaches a patient but causes no harm, it is reported.		4.06	n=16 · NA 1
We are given feedback about changes made because of what gets reported.		4.13	n=15 · NA 2
After a problem, this area actually changes how it works to prevent it recurring.		4.24	n=17
I know how to report a patient-safety concern here.		4.13	n=15 · NA 1

MANAGEMENT & SUPERVISOR SUPPORT

My supervisor / matron seriously considers staff suggestions for improving safety.		4.18	n=17
My supervisor / matron overlooks safety problems that happen over and over. (rev)		1.82	n=17
Management provides the resources (staff, equipment, drugs) needed to give safe care.		3.65	n=17
Management's actions show that patient safety is a top priority.		4.38	n=16 · NA 1
Management only seems interested in patient safety after something goes wrong. (rev)		2.00	n=17

HANDOVERS BETWEEN SHIFTS

Important patient-care information is shared clearly across shifts.		4.41	n=17
Things fall between the cracks when patients are handed over between shifts or staff. (rev)		1.87	n=15 · NA 2
Shift changes are a risky time for patients here. (rev)		1.62	n=16 · NA 1

EMERGENCY READINESS & ROUTINES

The crash cart / emergency tray is fully stocked and ready.		4.21	n=14 · NA 3
There is a routine, every shift, for checking emergency drugs and equipment.		4.08	n=13 · NA 4
If a child needed emergency resuscitation right now, we would have what we need.		4.40	n=15 · NA 2
Essential drugs or consumables are out of stock when we need them. (rev)		1.85	n=13 · NA 4

EMERGENCY READINESS (ABOUT YOU)

I have had recent resuscitation training (BLS / PALS / NRP) for the patients I care for.		3.07	n=15 · NA 1
--	--	------	-------------

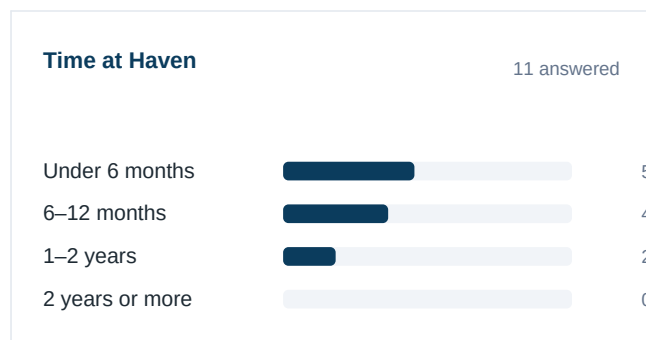

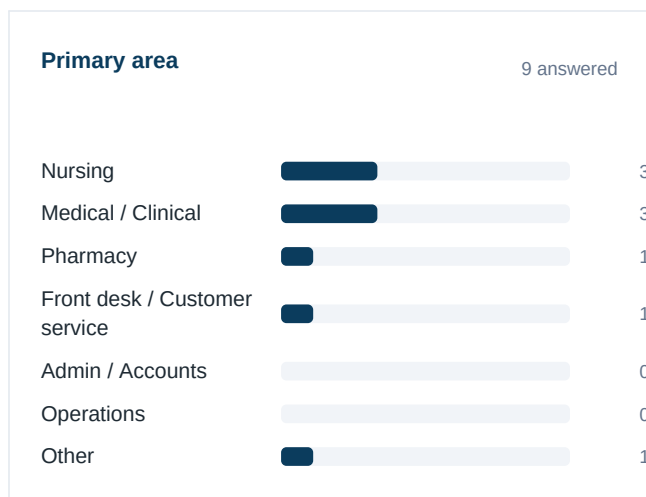

FAIRNESS, INCENTIVES & OWNERSHIP

I understand clearly what I am responsible for and what good performance looks like in my role.		4.47	n=17
The way pay, commission or rewards work here is fair and clear.		3.00	n=13 · NA 3
The rewards and recognition here encourage good, safe, careful work, not just speed or volume.		3.40	n=15 · NA 2
I feel a sense of ownership for how well Haven runs, not just my own tasks.		4.00	n=16 · NA 1

RECOMMENDATION

I would recommend Haven as a place to receive care.		4.59	n=17
I would recommend Haven as a place to work.		4.12	n=17

WHO RESPONDED (optional, self-reported)

IN THEIR OWN WORDS

ONE THING THAT WOULD MAKE HAVEN SAFER FOR PATIENTS · 10

Employ more staffs

Employ more manpower,

Improve the communication system, especially that of the inpatient

Timely response to patient

More bed spaces for patient care.
A tele health patient cent-red care for patients who can't be physically present in the hospital.
Essentials like microwave, freezers are needed for inpatient.
Patient caregivers complain a lot of the stair cases, they ask for elevator.
The general ward gets flooded when it rains.

So far, my obeservation of patient experience at haven is amazing. But adding feeding to the bill will be fine especially for those who have an infection and there doubt about hygiene.

Ensure adequate staffing and provide all staff with the equipment, training, and resources needed to deliver safe, high-quality patient care.

Prompt and seamless service delivery,
Reduction in waiting time are of great essence.

A bigger place not that what we have is not working for us, but we are growing bigger

Honestly we have most of what patients need to stay safe both seasoned manpower and material resources for their care . The rest of it is in Gods hands fr. We really do our best and one day it'll be enough

ONE THING THAT WOULD MAKE HAVEN A BETTER PLACE TO WORK · 11

Working as a team and family

Team work

Fair recognition
Fair and timely salary increament
Improve staff welfare
No talking to staff Impolitely

Good communication among staff

Staffs care i.e health insurance, pensions and safety is not into consideration.
Staff training especially clinical staffs on PALS, BLS,HIPPA.
Monthly rewards(forms of encouragement) from management to staffs
Team bonding activities, maybe monthly within Haven staff.

Hmmm. So far, everything is awesome but i would suggest a staff welfare plan/package like lunch daily while on duty.

Improve staff welfare by offering fair pay, recognizing employees' efforts, ensuring open communication, and creating a supportive and respectful work environment.

Rhe management knows best.

Structure and benefits, I understand that Haven is young but employees have a sense of belonging when they know that there is a future for them. E.g Pension plan, health insurance etc.

Better staff benefits.

Working at Haven has been a major boost for my career ngl. If I'm to chip in something it'll be health insurance for staff and then any of the goodies the management's already working on.

Method. Anonymous on-platform survey, 17 staff responses collected 22 Jul 2026–26 Jul 2026. Scale items run 1 (strongly disagree / never) to 5 (strongly agree / always); “N/A · Don't know” is excluded from the mean. **n** is the number of scored answers per item. **(rev)**-tagged items are negatively worded, so a lower score is the good result; colour is set on that basis and they are excluded from the positive-items average. Distribution bars run red (1) to green (5). No patient or parent responses had been submitted at the time of this report. Prepared by Consult for Africa for Haven Paediatric Centre; figures reflect responses as at 26 Jul 2026.
