

CadreHealth

Your career. Your call.

Brand essence

Positioning

CadreHealth is the career platform for Nigerian healthcare professionals. Real salary data, honest hospital reviews, verified credentials, and a readiness score calibrated to UK, US, Canada, and Gulf markets.

Audience

Doctors, nurses, midwives, pharmacists, and every cadre in between. Built first for Nigeria, scaling to the continent.

Tagline

Your career. Your call.

Logo

The image shows the CadreHealth logo, which consists of the word "CadreHealth" in a white, sans-serif typeface. The logo is centered within a solid dark blue rectangular background.

Current state

Logomark pending. CadreHealth currently inherits the C4A navy and gold and renders as type-only. A dedicated logomark is the highest-priority open brand task.

Usage rules

Clearspace Reserve space equal to the cap-height of the wordmark on all sides. Nothing crowds it.

Minimum size Wordmark must not render below 16 px on screen or 12 mm in print. Below that, use a future logomark only.

On dark Wordmark reverses to white. Never recolour into the gold or accent palette.

On light Wordmark sits in brand navy. Never grey, never black.

Do not Stretch, rotate, outline, drop-shadow, gradient-fill, or recolour the wordmark.

Typography & voice

Typography

Current state: system stack. Recommendation pending: a readable humanist sans (Inter or General Sans) tuned for phone screens, with a heavier display cut for the hero headline. All numerals should be tabular to keep salary tables aligned.

Voice principles

Talk to the cadre, not the system

Every line should make a junior pharmacist or a third-year doctor feel seen. Avoid HR voice.

Honest, not aspirational

We earn trust with real salary numbers and real hospital reviews. Match the copy to the receipts.

Cadre-inclusive by default

Doctors are not the centre. Nurses, midwives, pharmacists, lab scientists, radiographers, and CHEWs are first-class.

No em dashes

Never use em dashes in any copy, headlines, bios, or UI text. Use commas, periods, or rework the sentence.

Plain language

Write for a senior medic reading on a phone between cases. Short sentences. No jargon for its own sake.

Specific over generic

Name the hospital, the cadre, the country. Concrete proof beats adjectives every time.

Avoid AI framing

Do not lead with "AI-powered" or "AI-driven" in user-facing copy. It triggers data-privacy concerns with our audience. Describe the outcome, not the engine.

Say this, not that

Say

- + Real salary data. Honest hospital reviews. Verified credentials.
- + For doctors, nurses, pharmacists, and every cadre in between.
- + Your career. Your call.

Avoid

- "Talent", "human capital", "resources".
- "AI career coach", "AI-matched jobs".
- Migration framed as exit. Frame it as choice.

Applications

SAMPLE HERO

Your career. Your call.

How ready are you?

Approved headlines

HERO	Your career. Your call.
SUB	How ready are you?
PROOF	Real salary data. Honest hospital reviews. Verified credentials.

Stewardship

This guide is the working source of truth for the CadreHealth brand. It is not exhaustive. Logomark, full typography licensing, motion principles, photography direction, and stationery templates remain open items and will be appended as they are commissioned.

Open items

- Commission SVG masters of the wordmark and any new logomark.
- Lock display and body typefaces with a licensed foundry.
- Define motion principles for hero animations and chart reveals.
- Build photography direction: lighting, composition, subject brief.
- Stationery, deck templates, email signatures, social templates.
